

Hans-Georg Bartel studied chemistry at the Humboldt University of Berlin from 1962 until 1967. In 1972 he obtained his PhD with a thesis dealing with the Mathematical Theory of Games and Quantum Chemistry. In 1985 he got his habilitation in the fields of Mathematical Chemistry and Magneto-Chemistry. Since 1988 he is lecturer for Physical and Theoretical Chemistry at this university. In addition to Theoretical Chemistry, his research fields include History of Science, Archaeometry, Chemometrics, and Egyptology. He has several publications on Walther Nernst including the book "Walther Nernst" (Teubner: Leipzig 1989).
