

Contents

<i>Preface</i>	v
Part I. Introduction	1
1. A Brief Review of the Early History of Genetics and Its Relationship to Physics and Chemistry	3
<i>Ute Deichmann</i>	
Part II. First Initiatives, Concept, Founding and Crisis	19
2. Founding and Crisis	21
<i>Simone Wenkel</i>	
3. Die erste Zeit	39
<i>Carsten Bresch</i>	
4. The New Start	48
<i>Peter Starlinger</i>	
5. Building Molecular Biology in Post-War Europe: between the Atomic Age and the American Challenge	58
<i>Bruno J. Strasser</i>	
6. Beitrag zur Gedenkfeier für Max Delbrück	66
<i>Joseph Straub</i>	
7. Niels Bohr's Last Lecture — An Introduction.....	75
<i>Gunther S. Stent</i>	

8.	Light and Life Revisited.....	77
	<i>Niels Bohr</i>	
Part III.	The Beginnings	85
9.	Working with Max Delbrück	87
	<i>Charles N. David</i>	
10.	Recollections	94
	<i>Hans G. Zachau</i>	
11.	How Chemistry Met Genetics	102
	<i>Horst Feldmann</i>	
12.	Eindrücke eines Doktoranden	108
	<i>Fritz Melchers</i>	
13.	The Institute's Impact on Neighbouring Disciplines ..	122
	<i>Georg Michaelis</i>	
14.	Life with Bacteriophages.....	128
	<i>Thomas A. Trautner</i>	
Part IV.	Views from Outside	131
15.	View from (Cologne) Physics	133
	<i>Bernhard Mühlischlegel</i>	
16.	In the Smog of Genetics: Biochemistry in Cologne — My Version of History	136
	<i>Lothar Jaenicke</i>	
17.	History and Fate of a Similar Concept: the Biology Division of the Southwest Center for Advanced Studies in Dallas	144
	<i>Hans Bremer</i>	
18.	TMV in Tübingen and Its Escapade with Genetics	150
	<i>Karl-Wolfgang Mundry</i>	
Part V.	Research and Scientific Collaboration	157
19.	Molecular Virology and Medical Genetics at the Institute of Genetics in Cologne, 1972–2002	159
	<i>Walter Doerfler</i>	

20.	T4 Hets and Five Floors to Hang Around.....	178
	<i>Rainer Hertel</i>	
21.	The Long Way from Glucose Effects in Bacteria to (Systems-) Biology.....	183
	<i>Joseph W. Lengeler</i>	
22.	Attempts to Transfer Lab Structure and Scientific Habits from Harvard to Cologne.....	197
	<i>Benno Müller-Hill</i>	
23.	Joining the Institute of Genetics Early on as an Immunologist.....	204
	<i>Klaus Rajewsky</i>	
24.	Early Years of Transposon Research in Cologne.....	212
	<i>Heinz Saedler</i>	
Part VI. Molecular Biology and the German University Structure		
		217
25.	Panel Discussion.....	219
	<i>Hermann Bujard, Walter Doerfler, Klaus Rajewsky, chair: Maria Leptin</i>	
Part VII. Establishment and Teaching of Molecular Biology in Germany		
		247
26.	Panel Discussion.....	249
	<i>Charles N. David, Jonathan Howard, Hubert Kneser, Peter Overath, chair: Benno Müller-Hill</i>	
Part VIII. Final Remarks.....		
		269
27.	Science and Society.....	271
	<i>Peter Starlinger</i>	
Pictures of the History Workshop in Cologne in April 2005.....		
		278
