

## CONTENTS

Preface	v
<b>Part A Mathematics and Statistics in Society</b>	<b>1</b>
Estimating Internet Access for Welfare Recipients in Australia <i>A. Daly &amp; R. Lloyd</i>	3
Two Classification Methods of Individuals for Educational Data and an Application <i>A. Hayashi</i>	11
Measurement of Skill and Skill Change <i>R. Kelly &amp; P. E. T. Lewis</i>	17
Some Comments about Issai Schur (1875–1941) and the Early History of Schur Complements <i>S. Puntanen &amp; G. P. H. Styan</i>	28
<b>Part B Applications of Statistics</b>	<b>67</b>
Estimating the Number of SARS Cases in Mainland China in 2002-3 <i>J. Gani</i>	69
Using Statistics to Determine the Effectiveness of Prescribed Burning <i>K. J. King &amp; J. Chapman</i>	73

A Fair Tennis Scoring System for Doubles in the Presence of Sun and Wind Effects – An Application of Probability <i>G. Pollard</i>	89
<b>Part C Theoretical Issues in Probability and Statistics</b>	<b>97</b>
Perturbed Markov Chains <i>J. J. Hunter</i>	99
Matrix Tricks for Linear Statistical Models: A Short Review of our Personal Top Fourteen <i>J. Isotalo, S. Puntanen &amp; G. P. H. Styan</i>	113
On Influence Diagnostics in Multivariate Regression Models under Elliptical Distributions <i>S. Liu</i>	129
A Necessary Condition for Admissibility of Nonnegative Quadratic Estimators of Variance Components when the Moments are not Necessarily as under Normality <i>C.-Y. Lu, Y. Gao &amp; B. Zhang</i>	142
Small-Sample Performance of Robust Methods in Logistic Regression <i>S. Nargis &amp; A. Richardson</i>	152
On the Asymptotic Distribution of the ‘Natural’ Estimator of Cronbach’s Alpha with Standardised Variates under Non-normality, Ellipticity and Normality <i>H. Neudecker</i>	167
On the Approximate Variance of a Nonlinear Function of Random Variables <i>H. Neudecker &amp; G. Trenkler</i>	172
On Oblique and Orthogonal Projectors <i>G. Trenkler</i>	178

Fiducial Inference of Means and Variances from Normal Populations under Order Restrictions	192
<i>B. X. Zhang, X. Z. Xu &amp; X. Li</i>	
<b>Part D Probabilistic Models in Economics and Finance</b>	<b>209</b>
When Large Claims are Extremes	211
<i>R. Gay</i>	
Shrinkage Estimation of Gini Index	234
<i>R. Ghori, S. E. Ahmed &amp; A. A. Hussein</i>	
On the Problem of Discriminating between the Tails of Distributions	246
<i>C. C. Heyde &amp; K. Au</i>	
<b>Part E Numerical Methods</b>	<b>259</b>
An Approximate Maximum <i>a Posteriori</i> Method with Gaussian Process Priors	261
<i>M. Hegland</i>	
Data Extraction for Improved Prediction Outcomes in Organ Transplantation — A Hybrid Approach	276
<i>F. Shadabi et al.</i>	
Mining Multiple Models	289
<i>G. J. Williams</i>	
<b>Part F Abstracts without Papers</b>	<b>297</b>
Ranked Set Sampling: A Simple Idea of Great Use	299
<i>Z. Chen</i>	
Properties of Nearest-neighbour Classifiers	300
<i>P. Hall</i>	

Large Covariance Matrices: Estimation and Inference in High Dimensions	301
<i>I. M. Johnstone</i>	
Bootstrapping in Clustered Populations	302
<i>A. H. Welsh</i>	
On the Linear Aggregation Problem in the General Gauss-Markov Model	303
<i>H. J. Werner</i>	
Author Index	305
Subject Index	307
