

# Contents

Foreword	ix
Prologue	xi
1. Steady State versus Big Bang Cosmologies	1
2. The Microwave CBR	8
3. The Birth of Inflationary Cosmology	15
4. The Cosmic Background Explorer (COBE)	24
5. Dark Matter, Cosmic Flatness and Accelerated Expansion	34
6. The Microwave Anisotropy Probe (WMAP)	43
7. On the Monopole, Flatness and Horizon Problems	52
8. An Alternative to Inflation?	57
Appendix. How close are the cosmic times at Decoupling and Atom Formation	83
A Brief Glossary	93
Index	101
